Petaluma, Ca 94952

Description of Services:

Since 1990 I have been assisting investors to acquire and sell, or acquire and retain, Investment real estate throughout Northern California. My specialty seems to be assisting in structuring acquisitions with little or no money out of pocket. We can provide financing for acquisition, but just as important, funds for renovation, development and carrying costs. Private money lending offers maximum flexibility for financing your next project. Invest some time in speaking with me directly, before you make your next offer. After thousands of successful transactions, I have the skill set to assist you in achieving your goals.
